

## Heritage Partnerships Program in Texas

*The National Park Service is about more than just parks. The Heritage Partnerships Program of the NPS Intermountain Region helps community groups, local, state and federal agencies, tribal governments, nonprofits, and individuals identify, recognize and preserve national treasures that are located outside of our system of national parks.*

**T**he Heritage Partnerships Program (HPP) offers a wide range of services that can be tailored to meet the needs of an individual project. NPS professional staff includes historians, historical architects, and archeologists who assist project leaders in the preservation of our Nation's most significant places. HPP helps communities and groups identify nationally significant resources; prepare National Historic Landmark (NHL) nominations and historical reports; conduct archeological and architectural surveys; complete treatment plans for stabilization and repair; and create planning and education materials.

HPP comprises several programs, including the National Historic Landmarks; Historic American Buildings Survey (HABS), Historic American Engineering Record (HAER), and Historic American Landscapes Survey (HALS) documentation programs; the National Heritage Areas Program; Historic Surplus Property Program; and the Japanese American Confinement Sites Grant Program. In 2016, HPP supported a variety of projects in Texas, including:

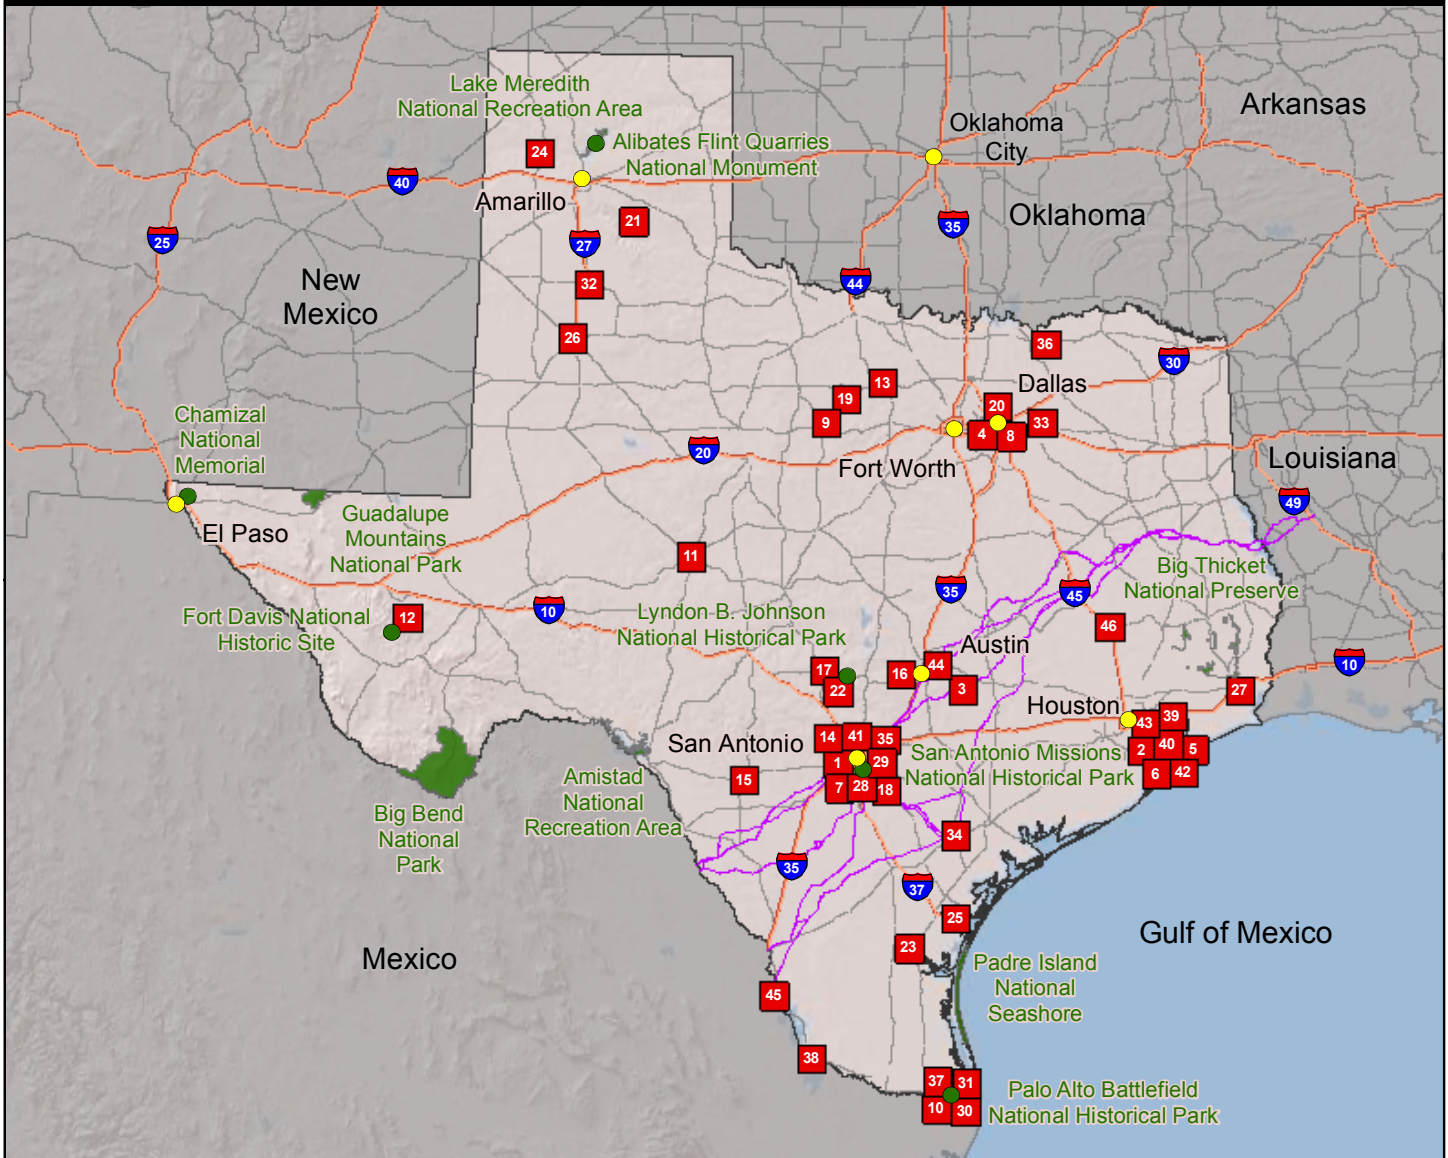

- **George W. Bush Childhood Home Reconnaissance Survey, Midland County** – determined that George W. Bush's childhood home at 1412 W. Ohio Avenue in Midland, TX, possesses national significance and recommended further study as a potential new National Park Service unit.
- **NHL Nomination for Casa Navarro, Bexar County** – provided technical assistance on the preparation of an NHL nomination for Casa Navarro, the San Antonio home of influential Tejano statesman and historian José Antonio Navarro. The Landmarks Committee of the NPS Advisory Board recommended the property for NHL designation at its Spring 2016 meeting.
- **Seagoville Internment Camp: Detainee Mural and "Japanese Colony" Study, Dallas County** – with a Japanese American Confinement Sites grant, Friends of the Texas Historical Commission, Inc., will assess and develop a restoration plan for a fading mural that was painted by an internee in the former Department of Justice Seagoville Enemy Alien Detention Station, and prepare interpretive banners for the site.
